

Ermatinger • Clergue National Historic Site Presents

*Heritage Culinary Experiences*

2019 Information Package

*“Not far from the church stands a building, regarded (by the residents of the area) as a wonder of architecture. The stone house, la maison de Pierre, as they call it, a large mansion built of stone by a former agent of the Northwest or Hudson Bay Company, who lived here in a kind of grand manorial style, with his servants, and horses, and hounds, and gave hospitable dinners in those days when it was the fashion for the host to do so...”*

*-William Cullen Bryant*

Today, we continue this tradition of offering guests a unique dining experience through our Heritage Culinary Experiences. Our Summer Kitchen offers the perfect setting for guests to gather together and enjoy one of our Heritage Meals much like Mr. Ermatinger was known to do with his guests many years ago. We offer a selection of Historic Menus that can be customized to fit the needs of your group. All of our menus are historically based and when and where possible, incorporate vegetables and produce grown on site. With most meals, a historic demonstration by one of our historical interpreters provides guests with a some knowledge to take away with them and share with and impress friends and family. From our “High Tea” to our “Voyageur Dinner” you won't want to miss out of the unique and enjoyable experience at the Ermatinger • Clergue National Historic Site.
