

8.0 REFERENCES

The following are recommended as the primary references for planning and design on and off-road bicycle routes in the City of Sault Ste. Marie. In designing cycling facilities in Sault Ste. Marie, consideration should be given to Provincial and National guidelines from the following sources:

- ACTIVE 2010 Ontario Trails Strategy, Ministry of Health Promotion (2005).
- Arterial Corridor Guidelines, Urban Strategies Inc. (2005).
- Bicycle Parking Guidelines, A set of recommendation from the Association of Pedestrian Bicycle Professionals [apbp], www.apbp.org.
- Canadian Highway Bridge Code (2002).
- Centre for Transportation Research, The University of Texas at Austin, Evaluation of On-street Bicycle Facilities Added to Existing Roads (August 2006).
- City of Ottawa 2003 Cyclist Profile Survey, Decima Research Incorporated (December 2003).
- Designing for All Users – Other Intersection Design Elements, David A. Noyce and Time J. Gates, University of Wisconsin – Madison, Janet M. Barlow, COMS (2004).
- Federal Highway Administration (FHWA)/U.S. Department of Transportation; Pedestrian Facilities Users Guide – Providing Safety and Mobility (2002).
- Guide for the Development of Bicycle Facilities, American Association of State Highway and Transportation Officials (AASHTO, 1999).
- Institute of Transportation Engineers (ITE) Nazir Lalani & the ITE Pedestrian and Bicycle Task Force - Alternative Treatments for At-Grade Pedestrian Crossings (2001).
- Institute of Transportation Engineers (ITE) / Federal Highway Administration (FHWA), Traffic Calming: State of the Practice, Report RD-99-135 (August 1999).
- Kane County Bicycle and Pedestrian Plan, Edwards and Kelcey (June 2006).
- Manual on Uniform Traffic Control Devices for Streets and Highways – 2003 Edition, Part 7 Traffic Controls for School Areas; US Department of Transportation Federal Highway Administration (2003).
