The Position

General Information

Career firefighters provide emergency response to a wide variety of occurrences including fires, emergency medical calls, motor vehicle accidents and alarm system activations.

Other duties include, but are not limited to, delivering fire safety public education, performing station duties such as tours, cleaning, maintaining grounds and dispatching units to alarms. You are expected to follow Standard Operating Guidelines and directions to complete tasks as assigned. Maintaining physical wellness is key in fulfilling your job requirements.

As a firefighter you will receive extensive and continuous in-service training. This education not only provides knowledge of the latest developments in firefighting and rescue techniques but also covers the handling of hazardous materials, emergency medical procedures, and fire prevention legislation. Firefighters use teaching skills to pass this knowledge on to the public, promoting fire prevention and safety awareness.

Equally important is the capacity to assess a situation and act accordingly as per your training and experience. Firefighters are frequently called upon to use their foresight, training and judgement to rescue others and protect themselves.

In addition to frequent contact with the public, firefighters also spend periods of time living and working together. Whether it is sharing routine maintenance chores or providing back up at the scene of emergency, firefighters must be able to accept orders without question and work effectively as members of a team of professionals.
