Hi I really like that Ssm will hopefully put up memorial for victims of the opioid Endemic. I have lost two relatives and many friends because of it. There needs to be more done tho to help people get off of it. Ppl need to stop being jailed in the remand centres for treatment and need real healing from the things that hurt them. Please consider doing parliamentary legislation to help drug control and stop where it's coming from. One little grain the size of a match stick can instantly kill someone not immune to it and of they're on downers such as clanazapam, diazepam, it makes it even more deadly and harder to bring them back. Please get back to me if you wish. I really miss my loved ones!

APH AT-A-GLANCE

COVID-19 Pandemic Response in Algoma

The province of Ontario remains under the provincewide shutdown and stay at home order until June 2nd. However, on May 22nd, outdoor recreational amenities were permitted to reopen, with a strict outdoor gathering of 5 people. Indoor gatherings remain prohibited. In time, as public health indicators improve, the province will be progressing through the three steps of reopening, beginning with lower risk outdoor settings.

At the time of writing, COVID-19 activity in Algoma showed a weekly incidence of 16.6 cases per 100,00 from May 13 to May 19, which represents a gradual decline from April. Ongoing transmission and active outbreaks involving variants continue to highlight the need to maintain preventive measures.

COVID-19 Immunization Update

Under the province's accelerated schedule of vaccine roll out, eligibility for COVID-19 immunization is now expanded provincewide to all people 18+. In addition to <u>immunization clinic sites</u> in municipalities and First Nation communities across the district, a number of Algoma pharmacies are now offering vaccines as well. Mobile clinics continue to be in operation to reach at-risk groups who have challenges accessing immunization, such as homebound clients and remote mine workers.

APH's <u>immunization tracker</u> provides up-to-date information on Algoma's immunization coverage. As of May 20th, about 50% of adults 18+, or 41% of the entire Algoma population, has received at least one dose of COVID-19 vaccine.

The province has further directed that youth aged 12 to 17 and their families will be prioritized for immunization during the month of June. APH has been working closely with school and immunization partners to promote and book in eligible families for immunization in order to maximize uptake among youth.

PROGRAM HIGHLIGHTS

Topic: Oral Health - The Ontario Seniors Dental Care Program (OSDCP) at APH

From: Hilary Cutler, Manager - Child & Family Services Laurie Zeppa, Director of Programs

Health Equity Goal:

Public health practice results in decreased health inequities such that everyone has equal opportunities for optimal health and can attain their full health potential without disadvantage due to social position or other socially determined circumstances.

Program Standard Requirements addressed in this report:

Oral health work broadly falls under one foundational standard (Health Equity) and two program standards (Chronic Disease Prevention and Well-being and School Health).

The **OSCDP** is 100% funded by the Ministry of Health and not currently reflected under a program standard.

School Health; Oral Health:

The Board of Health shall provide the Healthy Smiles Ontario (HSO) Program in accordance with the Oral Health Protocol, 2018 (or as current).

Key Messages

- The OSDCP was launched in November of 2019; to date, a total of 220 clients have accessed dental care under this program in Algoma
- Roughly 1 in 12 Algoma residents aged 65+ are eligible for the OSDCP
- Access to oral health care is a matter of health equity and a solution for alleviating strain on the health system
- The oral health program at APH continues to offer HSO, OSDCP and engage in program planning with the goal of contributing to a decrease in health inequities across Algoma

The Oral Health Program at APH

The oral health program at APH consists of 3.0 FTE Registered Dental Hygienists (RDH), 2.0 FTE + 2.0 seasonal full-time Dental Health Educators (DHE), clerical support, and one manager. One summer student is with the team until September 2021. Currently, the oral health program is supporting APH's COVID-19 response, with 2.5 FTE working to provide oral health services in addition to pandemic duties.

The summer student is not working COVID-19 and is helping with program planning and clinic administration.

Historically, the program has focused on school-based screening and coordinating services via Healthy Smiles Ontario (HSO), as detailed in the School Health Guideline and Oral Health Protocol. School screenings, follow-ups, and visits for eligible children aged 0-17 have occurred for many years in schools throughout the district and at APH's onsite dental clinic in Sault Ste. Marie.

In April of 2019, the provincial government announced a new, publicly-funded dental program for low-income adults aged 65 years and older. The purpose of the Ontario Seniors Dental Care Program (OSDCP) is to prevent chronic disease, contribute to an increased quality of life, and reduce unnecessary trips to the hospital.

The introduction of the OSDCP expanded the scope of APH's oral health program to be inclusive of the entire life course (i.e. birth to older age) while placing health equity at the forefront of planning. Both HSO and the OSDCP have income-based eligibility thresholds that allow access to dental care for some of the most marginalized groups who do not have dental insurance nor the financial means to cover the cost of dental care.

Access to oral health care is a matter of health equity

Inequities in oral health can be understood through oral health indicators (e.g. # of Decayed, Missing, and Filled Teeth- DMFT) and between different groups of people (e.g. stratified by income, education, and/or immigration status).³ People experiencing low-income, lower levels of education, and those who have immigrated to Canada have higher rates of DMFT compared to people with higher incomes, higher levels of education, and no immigration status.³

Inequities in oral health are problematic from a *health equity perspective* but also from a broader *health system perspective*. Many people cannot afford to visit a dentist and therefore do not have equal opportunities for optimal health because of their social position or other socially determined circumstances. It is well known that oral health is intricately connected to one's overall health.²⁻³ In addition, when many people in the population suffer from poor oral health, negative impacts occur to the overall health system, such as increased emergency department visits, resulting in increased financial strain on the healthcare system.

Access to oral health care in Algoma

Algoma is home to many residents aged 65+; in fact, Algoma has a higher percentage of seniors than both the NE LHIN (20.6%) and Ontario (16.7%).⁴ Algoma's population is ageing, and many older adults

cannot afford basic dental care.⁵ In general, northern Ontario communities experience poorer health outcomes and greater health inequities compared to the rest of the province.⁶

- 23.7% of Algoma's population is aged 65 years and over (26,744 people)⁴
 - o Roughly 1 in 12 Algoma residents aged 65+ are eligible for the OSDCP (2,172 people)⁶
 - By 2026, residents aged 65 years and older are projected to represent 30.4% of Algoma's population and 34.1% in 2036⁴

The OSDCP in Algoma - A year in review

APH has been offering the OSDCP since its official launch in November of 2019, with one brief pause in service delivery during the first provincial lockdown in early 2020. The program includes coverage for various types of preventative, restorative, and prosthodontic care for eligible seniors,² and to date, APH has partnered with service providers across Algoma to offer the following:

- 5 dentist service providers located in Sault Ste. Marie, Elliot Lake, and Wawa
- 2 denturist service providers in Sault Ste. Marie, Elliot Lake, and Wawa
- Onsite hygiene and treatment clinic at APH's Sault Ste. Marie office (note that hygiene clinics have not operated since prior to the first provincial lockdown due to staff deployed to the COVID-19 response)

To date, a total of 220 clients have accessed dental care through the OSDCP in Algoma.⁷ Roughly 200 clients are awaiting hygiene services, and currently, staff are booking into August for the Sault Ste. Marie APH treatment clinic. Denture services first became available to clients in Algoma in March of 2021, and between March and April, 35 clients received dentures under this program.

On May 11, 2021, the provincial government announced updated income thresholds for the OSDCP, widening the eligibility criteria so that more residents will become eligible for the program starting August 1.8 Clients may submit their applications as per the new eligibility criteria starting July 1. Interested community members may visit APH's <u>Oral Health webpage</u> or call APH for more information. Please note that the website is not yet updated with the recently announced income thresholds. However, program information remains the same.

Next Steps: Summer 2021 and beyond

Given the provincial government's recent income threshold announcement, the oral health program will review Algoma's eligibility data to forecast demand and plan for service utilization across the district. This work will occur throughout the summer, along with program planning that will involve a fulsome review of the literature as it relates to oral health frameworks. The development of a framework/conceptual model will help ground the program within the broader field of public health and

help articulate an oral health equity approach across the lifespan for residents of Algoma. The provision of the OSDCP in Algoma will be evaluated for effectiveness and may include indicators such as emergency room visits for the eligible population, pre and post implementation of the program.

In addition to program planning, monitoring, and evaluation, the federal and provincial policy landscape continues to be monitored for equity-related policies that would impact Algoma residents. For example, the federal government has promised Universal Pharmacare in Canada,⁹ of which oral health care is not included. However, the Minister of Health has been tasked with studying and analyzing the possibility of a national dental care program-¹⁰ a topic that has recently garnered attention in the House of Commons.¹¹

APH's oral health program values a multidisciplinary health promotion approach to oral health, with a goal of decreasing health inequities such that every Algoma resident has equal opportunities for optimal health. This goal will continue to guide program planning and service delivery of both HSO and the OSDCP.

Report of the Medical Officer of Health and Chief Executive Officer May 26, 2021 Page 7 of 9

Topic: Workforce Update

From: Antoniette Tomie, Director of Corporate Services

Key Messages:

- Recruitment efforts have significantly increased in 2020-2021 due to support for COVID-19 response needs
- APH has upheld a commitment to create enriching student/learner opportunities
- HR has adapted the recruitment process to use a virtual model

Considerable efforts have been dedicated to the recruitment function for the HR team during the last year. For the period January 1st to March 31, 2021, inclusive, APH has posted and filled forty-two (42) positions, with thirty-six (36) of these being directed related to COVID-19 response. In comparison, for the same period in 2020, three (3) positions were posted and filled, which is typical of a normal year. As of May 14, 2021, sixty-six (66) new employees have been hired since January 1, 2021, and recruitment efforts are continuing at a rapid pace.

When APH activated its Incident Management System (IMS) on March 11, 2020, it started a cycle where some staff were redeployed from their original assignments in order to assist with COVID-19 response, including case management and dedicated COVID-19 phone lines. Staff were alternatively redeployed to other programs such as the Needle Exchange program so that clients could still receive these services. Some staff, as well as members of the leadership team, continued with their own assignments as well as took on significant roles in COVID-19 response. Since the activation of IMS, a number of temporary or casual positions have been created to assist with the COVID-19 response, including:

- Forty-one (41) casual immunizers have been hired and have been instrumental in administering vaccines with our community partners at various COVID-19 mass immunization and mobile clinics throughout the district of Algoma;
- Infectious Disease and Control Specialists (IPAC) due to IPAC funding as was indicated in the March 24, 2021, Medical Officer of Health/CEO Board report;
- Supervisors for COVID-19 Response to assist managers with this increased workload
- Program Planning & Evaluation Assistants to provide support to the Planning and Evaluation Specialist
- COVID-19 Operations and Communication Support Assistants to man the dedicated COVID-19
 phone lines with the goal of current staff returning to their pre-COVID-19 assignments

- An administrative assistant to schedule casual immunizers and provide administrative and human resources support
- A secondment agreement with the City of Sault Ste. Marie was signed for a COVID-19 inventory coordinator. This position provides assistance with tracking and distribution of COVID-19 ancillary supplies for all our community based and mobile clinics.

Summer students

APH normally hires a few students to assist with our beach water sampling as well as administrative support in the Sault Ste. Marie office. Currently, we are in the midst of onboarding a significant number of summer students. APH was successful in applying and being approved for some funding of summer student positions through the Canada Summer Jobs initiative. Summer students will be of great assistance with COVID-19 work, especially for COVID-19 appointment booking and support. The HR team, in conjunction with various members of the leadership team, conducted a summer student hiring blitz in April to fill upwards of twenty (~20) student positions. This will be an incredible opportunity and great learning experience for these post-secondary students.

Student placements/learners

APH continued with student placements/learners during the pandemic with some creativity in delivering quality experiences with most done remotely or a hybrid model. During the pandemic, we have had a number of student placements/learners, including nursing students, a dietetic intern, a student from the collaborative nurse practitioner program, environmental health practicum students, a student placement for our preschool speech and language program, as well as rotations for three public health resident physicians from the Northern Ontario School of Medicine.

The HR team had a 4th year nursing student who spent their time researching and assessing mental health promotion within the workplace. This work completed will be a foundation for a comprehensive long-term Agency-wide mental health strategy.

In the near future, APH will post for an HR intern as we have received some funding for this position from the Northern Ontario Heritage Fund Corporation (NOHFC).

Adapted Recruitment Processes

At the onset of the first wave of COVID-19 public health measures, the HR team at APH quickly adapted their recruitment efforts to be entirely virtual. While candidate sourcing continues to be done online, interviews have shifted to video conferencing formats. Traditionally, recruitment processes have taken place during regular business hours; however, the flexibility of virtual recruiting has given rise to extended hours of availability among candidates and recruiters alike. The adaptability of the HR team, as

Report of the Medical Officer of Health and Chief Executive Officer May 26, 2021 Page 9 of 9

well as hiring managers, has proven to be successful, given the quality and quantity of talent that has been recruited.

Although significant efforts have been put towards positions for COVID-19 response, we are still experiencing retirements and resignations, and ongoing recruitment efforts continue for our core public health programs. Up until April 2021, the bulk of recruitment and selection processes were administered by predominately two (2) HR professionals. While working many hours to hire the best candidates for the posted jobs, they continued to perform essential HR functions, including onboarding all new hires, divestment of the community mental health and community alcohol and drug assessment programs, and labour negotiations preparation.

Overall, APH is continuing to see rapid growth in our labour force. Shifting to a virtual model of recruitment has proven to be successful, and ongoing efforts are being made to continuously improve our sourcing, recruitment and selection processes.

Notes to Financial Statements - March 2021

Reporting Period

The March 2021 financial reports include three months of financial results for Public Health. All other non-funded public health programs are reporting twelve-month results from operations year ending March 31, 2021.

Statement of Operations (see page 1)

Summary - Public Health and Non Public Health Programs

As of March 31, 2021, Public Health calendar program expenditures are reporting a \$782k positive variance up \$108k from February YTD.

Total Public Health Revenues are indicating a \$6k positive variance.

APH's Community Health (Non-Public Health Funded) Fiscal Programs have completed the fiscal year. These programs operated with a surplus:

- Infant Development \$106k
- Community Mental Health (includes rent subsidies) \$106k
- Community Alcohol, and Drug Assessment Programs \$142k

The primary reason for the surplus is due to staff vacancies and reduced travel due to COVID-19. These amounts once reviewed by auditors will be returned or recovered to the funding agency.

The following programs did not have a surplus, therefore, funds will not be returned to their funding agency:

- Healthy Babies Healthy Children
- Brighter Futures for Children
- Preschool Speech and Language
- Nurse Practitioner

Public Health Revenue (see page 2)

Overall, Public Health calendar funding revenues are within budget.

Mitigation funding from the province will continue for 2021.

The Infection Prevention and Control (IPAC) Hub program received \$740k. APH was recently notified that \$320k of this one-time funding could be carried over through to March 31, 2022. With this notification, APH has posted for a temporary IPAC position to aid our congregate living community partners in assisting them with education of IPAC practices.

The School Nurses Initiative for the fiscal period April 2020 – March 2021 provides up to \$469k in funding. Due to timing of the announced funding and ongoing recruitment of qualified temporary public health nurses to fill these positions there will be a surplus in this program. The province withheld \$95k in funding in February and \$142k in March for a total of \$257k.

Notes Continued...

APH has received \$71k towards Sr. Dental capital upgrades. Due to COVID-19, the work has not been completed and has been approved to carry over to March 31, 2022.

Public Health Expenses (see page 3)

Salary & Wages

There is a \$584k positive variance associated with Salary and Wages or 20% under budget. This is a result of budgeted positions not yet filled.

Travel

There is a \$26k positive variance associated with Travel expenses. This is a result of APH employees working virtually as opposed to travelling throughout the district or attending meetings outside of the district.

Program

Program expense is indicating a \$72k positive variance. This is due to a \$65k variance with Professional Fees with COVID-19 Mass Immunization. Costs for this line item have started and it is too early to determine if there will continue to be a surplus.

Computer Services

The \$57k positive variance is due primarily to being down 1.0 FTE by the IT service provider. Recruitment is ongoing for the 1.0 FTE.

Telecommunications

Telecommunications expense is indicating a \$17k positive variance. This is due to the timing of expenses. It is anticipated that APH is on track to be close to budget for Telecommunication expenses.

Professional Development

There is a \$16k positive variance for Professional Development. At this time there has been limited spending for professional development, as staff availability is extremely tight and limited opportunities for professional development due to COVID-19.

Recoveries

There is a \$37k positive variance for Recoveries. This is due to MCCSS funded programs permitting an increase to administrative recoveries until March 31, 2021 because of increased costs to support these programs due to COVID-19.

COVID-19 Expenses

COVID-19 Response

This program includes case and contact management as well as supporting the information phone lines. March YTD expenses were \$1.1M. The majority of this consists of salaries and benefits costs of APH staff that under normal circumstances would be working in their assigned public health programs. These expenses are expected to rise due to hiring more temporary staff to support this initiative.

Notes Continued...

COVID-19 Mass Immunization

This program includes the planning, support, documentation, and actual needles in arms of the various COVID-19 vaccines. March YTD expenses were \$481k. These expenses are expected to increase significantly and there is ongoing recruitment of temporary and casual staff to support this initiative.

In 2020, the Ministry of Health reimbursed APH for COVID-19 extraordinary costs and they will continue this financial support for 2021.

Financial Position - Balance Sheet (see page 7)

APH's liquidity position continues to be stable and the bank has been reconciled as of March 31 2021. Cash includes \$1.15M in short-term investments.

Long-term debt of \$4.47 million is held by TD Bank @ 1.95% for a 60-month term (amortization period of 180 months) and matures on September 1, 2021. \$265k of the loan relates to the financing of the Elliot Lake office renovations, which occurred in 2015 with the balance, related to the financing of the 294 Willow Avenue facility located in Sault Ste. Marie. There are no material accounts receivable collection concerns.

Current Assets have reduced as of March 31, 2021 by \$74k from December 31, 2020. Accounts Receivable has decreased by \$574k partially due to receipt of funds owing, \$385k COVID-19 Extraordinary Costs and \$50k Stay on Your Feet. This is reflected in Cash & Investments showing an increase of \$430k.

Current Liabilities have decreased as of March 31, 2021 by \$578k from December 31, 2020. Payable to Gov't of Ont/Municipalities has decreased by \$869k. This includes a return for payment in error of \$318k and recoveries from the province for \$137k. Deferred Revenue increased by \$389k of which \$320k is for the IPAC initiative that was approved to carry over into the 2021/22 fiscal year.

Governance Committee Meeting

May 12, 2021

Attendees Virtually:

Deborah Graystone - Chair Tania Caputo - Board Secretary

Attended Virtually:

Sally Hagman Musa Onyuna Brent Rankin

APHU Executive Attended Virtually:

Jennifer Loo - MOH

Regrets:

Lee Mason

By-Law #95-3 was the only Policy or By-Law due for review. This By-Law was reviewed by the committee and accepted as is with no amendments.

A table including a list of current board members with dates and terms of membership was provided for review and information. This information will help the committee ensure skills and adequate board membership is maintained.

A discussion took place regarding taking a "deeper dive" into the skills and expertise matrix to ensure we had a diverse and inclusive board.

Consideration of development of a task force or working group to refine our skills and expertise matrix was discussed.

Sally Hagman will poll the chairs of other boards to help with developing a more comprehensive matrix.

Tania Caputo will also communicate with the Public Appointments Secretariat regarding posting the vacancies that currently exist on our board of health.

We also discussed the development of a questionnaire/survey to determine our current board skills and expertise.

Algoma Public Health - Policy and Procedure Manual - Board Policies and Bylaws

APPROVED BY: Board of Health **BY-LAW #**: 95-3

DATE: Original: December 13, 1995 **SECTION:** Bylaws

Revised: June 17, 2015

Revised: June 28, 2017 SUBJECT: To Provide for the Duties of the

Reviewed: November 20, 2019 Auditor of the Board of Health

The Board of Health for the District of Algoma Health Unit enacts as follows:

 In accordance with the Health Protection and Promotion Act and the Municipal Act, the Board shall, appoint an Auditor who shall not be a member of the Board and shall be licensed under the Public Accountancy Act.

As per the Municipal Act 2001

296 Joint boards

- 2. (10) If a local board is a local board of more than one municipality, only the auditor of the municipality that is responsible for the largest share of the expenses of the local board in the year is required to audit the local board in that year. 2009, c. 18, Sched. 18, s. 5.
- 3. The Auditor shall:
 - a) audit the accounts and transactions of the Board;
 - b) perform such duties as are prescribed for the Auditor by the Health Protection and Promotion Act; by the Ministry of Municipal Affairs with respect to local Boards under the Municipal Act and the Municipal Affairs Act;
 - c) perform such other duties as may be required by the Board;;
 - d) have the right of access at all reasonable hours to all books, records (with signed consent, if consent is required under the Municipal Freedom of Information and Protection of Privacy Act), documents, accounts and vouchers of the Board; the auditor is entitled to require from the members of the Board and from the Officers of the Board such information and explanation as in his or her opinion may be necessary to enable him to carry out such duties as are prescribed under the Health Protection and Promotion Act;
 - e) be entitled to attend any meeting of members of the Board that concerns the auditor and to receive all notices relating to any such meeting that any member is entitled to receive and to be heard at any such meeting that he or she attends.

Enacted and passed by the Algoma Health Unit Board this 13th day of December 1995.

Hon. Doug Ford Premier of Ontario Legislative Bldg Rm 281, Queen's Park, Toronto, ON M7A 1A1

Dear Premier Ford,

Re: Public Health Measures – Extension of Current Restrictions

On behalf of the Association of Local Public Health Agencies (alPHa) and its member Medical Officers of Health, Boards of Health and Affiliate organizations, I am writing today to strongly recommend a further extension of the current province-wide restrictions, including the stay-at-home order, beyond their planned expiry on May 20th.

After an aggressive resurgence that followed the lifting of similar restrictions in February, we are encouraged by the beginnings of clear downward trends in the reproductive rate, new daily cases, active cases, hospitalizations, and test positivity rates following the reimposition of restrictions in early April. Most of these metrics however, most notably patients in ICU, remain far higher than they were at the peak of the second wave, and we do not anticipate that this will change before the current orders lapse.

It is crystal clear that public health measures aimed at decreasing mobility and interpersonal contact are by far the most important tool we have currently to prevent transmission of COVID-19. Their effectiveness is not up for debate after three waves of declines and resurgences occurred in lockstep with the intensification and relaxation of restrictions. Any move to relax restrictions now would without a doubt reverse the modest downward trends we have observed over the past two weeks.

Ontario is making great progress with its vaccination campaign but until we have achieved a critical mass of people who are fully vaccinated, we must rely on minimizing transmission by limiting interpersonal contact until such a time as the metrics we have been using to guide our decisions thus far reflect solid epidemiological evidence that transmission and the risks of severe outcomes are low enough, and capacity in acute care and public health has improved enough that restrictions can be lifted. Now is not that time.

Our members, as Ontario's front-line and pre-eminent public health experts, are more than willing to provide further advice and input to ensure the success of Ontario's COVID-19 response and we look forward to an invitation to discuss this with you further. To schedule a meeting, please have your staff contact Loretta Ryan, Executive Director, alPHa, at loretta@alphaweb.org or 416-595-0006 x 222.

Yours Sincerely,

Carmen McGregor, alPHa President

Dr. Paul Roumeliotis, Chair, Council of Ontario Medical Officers of Health (COMOH) Trudy Sachowski, Chair, Boards of Health Section

COPY: Hon. Christine Elliott, Minister of Health
Dr. David Williams, Chief Medical Officer of Health
Alison Blair, Associate Deputy Minister, Pandemic Response and Recovery

The Association of Local Public Health Agencies (alPHa) is a not-for-profit organization that provides leadership to the boards of health and public health units in Ontario. alPHa advises and lends expertise to members on the governance, administration and management of health units. The Association also collaborates with governments and other health organizations, advocating for a strong, effective and efficient public health system in the province. Through policy analysis, discussion, collaboration, and advocacy, alPHa's members and staff act to promote public health policies that form a strong foundation for the improvement of health promotion and protection, disease prevention and surveillance services in all of Ontario's communities.

May 14, 2021

Honourable Doug Ford Premier of Ontario premier@ontario.ca

Dear Premier Ford,

On behalf of the Peterborough board of health, I would like to share our appreciation and support for your decision to extend the current Stay-at-Home Order that was set to expire on May 19 until at least June 2, 2021. Your announcement yesterday has come as good news for our communities in Peterborough, where we have seen a much slower decline in the incidence of daily COVID-19 cases than with previous provincial lock downs.

Although we understand the sacrifices that are required by our local operators and businesses, it is critical that when we do emerge from this period, we are able to sustain any gains made. We continue to make great progress with our vaccination roll-out but we will not have achieved the critical mass of fully immunized individuals by June 2nd and we must rely on a continuation of public health measures to prevent a resurgence.

With this in mind, we would like to propose three priorities for provincial leadership in order to prepare for June 2nd and a successful transition to recovery over the summer months:

First, we request that the province articulate the parameters that need to be achieved in order for the order to be lifted or modified. This includes clearly specifying goals such as daily new cases, transmission rates, test positivity rate, hospitalization and ICU capacity that will indicate when it is safe to ease the current restrictions. Sticking to the health measures will be much easier if we have specific goals to work towards.

Second, we urge that lower-risk outdoor activities be permitted. Communities are exhausted and the science supports the outdoors as a safer setting for physical activities such as play and recreation. Surely we can allow sports, exercise, and similar activities that can be done in small numbers, allow for physical distancing and other public health measures like the wearing of masks where necessary. For many of these spaces, the missing ingredient is the required supervision to ensure appropriate use. This may be a target for enhanced provincial funding to allow municipalities to step in to fill this gap.

Third, we believe that part of the encouragement for people to get vaccinated is the provision of the rationale. In other words, the descriptions of what additional activities can or loosened restrictions fully vaccinated individuals can expect. Now is the time to provide guidelines of what a fully vaccinated person can do with another fully vaccinated person — whether that may be to hug, eat together, share a visit with a parent in long-term care. We encourage the Premier to accept the invitation from alPHa, our provincial association of boards of health, for further input and advice on how best to ensure the success of Ontario's COVID-19 response as we move into the summer months.

The battle against COVID 19 and the management of the pandemic has highlighted the value of the partnership between public health and the government in protecting the health of Ontarians. As we move forward together to finish the job and as we consider the ongoing role of Public Health in a post-pandemic environment, we look forward to continuing the close collaboration with the government and other health care partners.

Once again, thank you, Premier, for taking action and communicating it clearly with us in a timely way.

Sincerely,

Original signed by

The COVID-19 pandemic has made clear the enduring importance of timely and useful information that can be used to help guide decision-making and improve operations at every level of our public health system. The goal of a continuously learning, relentlessly improving system – or learning health system – has become a focus for health system funders, researchers, and policymakers. In this discussion we'll explore how close we are to a learning public health system in Ontario and what key changes could help realize fully the vision of such a system. Distinguished Service Award (DSA) is awarded by the Association of Local Public Health Agencies to individuals in recognition of their outstanding contributions made to public health in Ontario.

Blue Box Regulation Released and Province Easing Restrictions on Long-Term Care

Policy Update • June 03, 2021

Blue Box Regulation for Full Producer Responsibility Transition

The Province today released the regulation to transition the Blue Box to <u>full producer</u> <u>responsibility</u>. This transition will occur between July 1st, 2023 and the end of 2025. It will move Ontario forward with better environmental and economic outcomes.

This is an important milestone for municipalities and for Ontario's environment. Municipal governments are ready to implement this transition to full producer responsibility smoothly and seamlessly.

"These changes to the Blue Box program reflect the most important advances in waste diversion since the program was created two decades ago," said AMO President Graydon Smith. "It will save property taxpayers \$150 million a year and lead to better, more innovative, and sustainable packaging practices."

The final regulation includes the following provisions:

- establishment of a province-wide common collection system that transitions all current municipal programs and expands servicing to:
 - all communities regardless of size (except Far North)
 - o all residential dwelling types

- o all schools
- all publicly run retirement homes and long-term care facilities, and
- o more public spaces.
- an enhanced and standardized list of materials that will need to be collected and recycled
- high, progressive, and enforceable targets
- certainty for planning to ensure a seamless transition.

We expect that the regulation will be posted on the Ontario e-laws site soon.

AMO has scheduled a webinar for municipal staff on Wednesday, June 9th from 12 noon to 2 pm to provide more details on the regulation and how municipalities can ensure they are prepared for the transition. Municipal staff can <u>register to attend</u> this webinar now.

Province Easing Restrictions on Long-Term Care

Effective Wednesday, June 9th, the Ontario government <u>announced</u> it is easing some restrictions in long-term care homes. The purpose is to allow residents to have more social connections with family, friends, and other residents. The decision is due to high levels of vaccination in long-term care homes and improvements in key public health care indicators. Changes include:

- Residents who have been fully immunized can leave their long-term care homes for day and overnight social outings and trips.
- Residents with mobility limitations or health conditions (essentially, factors unrelated to
 weather) that make participating in outdoor visits highly unlikely or impossible may have one
 general visitor at a time inside the long-term care home, in addition to an essential caregiver.
- Regardless of resident and visitor vaccination status, brief hugs can now take place. Where
 both the resident and visitors are fully immunized, close physical contact, including
 handholding, can now safely take place. Residents and visitors are to adhere to public health
 measures in the home, including good hand hygiene and appropriate masking.

Further specific information is found in an updated Directive #3, as well as the Ministry of Long-Term Care's <u>visitor policy</u> and <u>guidance document</u>. The government will monitor the ongoing situation in the vulnerable sector to protect health and safety and promote mental health and well-being.

AMO's <u>COVID-19 Resources</u> page is being updated continually so you can find critical information in one place. Please send any of your municipally related pandemic questions to <u>covid19@amo.on.ca</u>.

Media Release

The Federation of Northern Ontario Municipalities (FONOM) would like to commend the Province of Ontario for taking a giant step forward in improving waste diversion and protecting the environment.

Today, Ontario's Environment Minister Jeff Yurek formally announced the final regulation to transition the Blue Box program from municipalities to producers. When fully implemented, this regulation will go a long way in addressing litter in our communities, reducing single-use plastics making their way into watercourses and expanding the Blue Box program into new communities in Northern Ontario.

"This regulation has been looked at by three consecutive governments. I would like to recognize Premier Ford and Minister Yurek for having the courage to introduce this regulation, which will not only benefit our environment but will remove the cost of the Blue Box program from property taxes," stated FONOM President Danny Whalen

FONOM has been actively working for nearly a decade with AMO, M3RC, OWMA, and municipal staff from across the province on the framework for this regulation. Additionally, FONOM's membership has been instrumental in ensuring that all Northern and Rural Ontario (excluding those in the far north) is included in the transition.

"I would like to applaud the team that AMO assembled from across the province," stated President Whalen. "Staff from the City of Toronto and other regions within southern Ontario were instrumental in ensuring Northern Ontario is included in the regulation."

The FONOM Board would like to thank AMO's Board and Staff for the advocacy on this file on behalf of our members. Monika Turner, Dave Gordon, and Amber Crawford have worked tirelessly on this issue with Stewards and the Government, along with FONOM's own Councillor Mac Bain.

Some of the highlights of the Regulation are:

- Staggered transition from municipalities from 2023 to 2025
- Expanding collection to all communities outside the Far North by 2026;
- Standardizes what can be recycled across Ontario;
- Includes municipalities under 5,000 population
- Accepting common single-use and packaging-like products such as paper and plastic cups, foils, trays, bags, and boxes sold for home use;
- Collecting single-use items that are distributed or sold to consume food and beverage products, like stir sticks, straws, cutlery, and plates;

- Expanding services to more facilities such as apartment buildings, municipally run or non-profit long-term care homes and retirement homes, and schools;
- Expanding collection to more parks, playgrounds, and transit stations, more than tripling the number of public space recycling bins funded under the current program so there are more opportunities to recycle at home and on the go.
- Ensures existing deposit return programs such as The Beer Store will continue.

FONOM is an association of some 110 districts/municipalities/cities/towns in northeastern Ontario mandated to work for the betterment of municipal government in Northern Ontario and to strive for improved legislation respecting local government in the north. It is a membership-based association that draws its members from northeastern Ontario and is governed by an 11-member board.

Sincerely

President Danny Whalen

The Honourable Doug Downey, MPP, Attorney General 20 Bell Farm Road Barrie, ON L4M 6E4 (sent via email doug.downey@pc.ola.org)

Dear Minister Downey:

Re:

NATIONAL 3-DIGIT SUICIDE AND CRISIS HOTLINE

On behalf of the Council of The Corporation of the City of Barrie, I wish to advise you that City Council adopted the following resolution at its meeting held on April 26, 2021:

21-G-098 NATIONAL THREE DIGIT SUICIDE AND CRISIS HOTLINE

WHEREAS the Federal government has passed a motion to adopt 988, a National three-digit suicide and crisis hotline; and

WHEREAS the motion calls for the federal government to consolidate all existing suicide crisis numbers into one three-digit hotline; and

WHEREAS the ongoing COVID-19 pandemic has increased the demand for suicide prevention services by 200%; and

WHEREAS existing suicide prevention hotlines require the user to remember a 10-digit number and go through directories or be placed on hold; and

WHEREAS in 2022 the United States will have in place a national 988 crisis hotline; and

WHEREAS the City of Barrie recognized that it is a significant and important initiative to ensure critical barriers are removed to those in a crisis and seeking help:

NOW THEREFORE BE IT RESOLVED as follows:

- 1. That the City of Barrie endorses this 988 crisis line initiative.
- That a letter demonstrating Barrie's support be sent to Todd Doherty, MP Caribou-Prince George, John Brassard, MP, Barrie-Innisfil, Doug Shipley, MP, Barrie-Springwater-Oro-Medonte, the Honourable Andrea Khanjin, MPP, Barrie-Innisfil, the Honourable Doug Downey, MPP, Barrie-Springwater-Oro-Medonte, the Honourable Patty Hajdu, Federal Minister of Health, the Canadian Radio-television and Telecommunications (CRTC) and all municipalities in Ontario.

If you have any questions, please do not hesitate to contact the undersigned, wendy.cooke@barrie.ca or (705) 739.4220, Ext. 4560.

Yours truly,

Wendy Cooke

City Clerk/Director of Legislative and Court Services

MOVED BY <u>Christine Shippam</u>	
SECONDED BY Sandy Cross	

"That Dead-End Road delegations be received from parents, video, site www.durhamdeadendroadkids.ca and attached correspondence and;

Whereas Dead-End Road Kids (cul-de-sacs, private roads) busing is being moved from long-time residential pick-ups; percentages of 830,000 Ontario bused students impacted as Student Transportation Services (STS) citing buses shouldn't access private roads, do 3-point turns, or backups; kids are expected to walk 1-2 km twice daily (caregivers 4x) in the morning dark or narrow road shoulders, and with no "bus stop ahead" warning signage;

Whereas parents report employment/housing is at risk as they must leave work to drop off/pick up children to avoid safety hazards of kids walking on highways unsupervised; secondary school youth reporting education at risk as missing class/affecting grades; children with disabilities are not helped (e.g. double amputee who needs bus stop moved 160 ft. and parents were told it's their "responsibility to get kids to bus safely");

Whereas parents are being told busing policy is schoolboard's, but schoolboard say its STS, who say it is the Governance Committee of Ministry of Transportation, but Ministry of Education say it's "transportation consortia who administer the policy"; and trustee, governance say cannot change policies, so parents appealing to police, press and Councils with respect to the dangers; and that an oncoming car killed 12 year old Cormac and injured his sister while waiting at a newly relocated bus stop at the base of a hill, and;

Whereas STS have advised road improvements are the responsibility of municipalities, yet municipalities do not own the needed land, nor have millions of dollars to create 77m bus turnarounds, and;

Whereas Ontario Transportation Funding is \$1 billion: Jan 27/20 Ministry said they'd improve student transportation, review funding formula; and given STS gets their funding by scoring well in reviews, and given Ministry establishing "Student Transportation Advisory Group" to hear STS sector expertise experience, and ideas;

Now Therefore Be it Resolved that the Corporation of the Municipality of Calvin requests;

- 1. Exceptions to allow 3-point turns or backing up where necessary, to provide safer service to dead-end and private road kids, that policies be amended to reflect; and when not possible,
- 2. Exceptions to allow indemnification agreements to access private land for bus turnarounds to keep bus stops safer and closer to prescribed 800m distance; and when not possible,

- 3. "Bus Stop Ahead" warning signage be required to notify oncoming traffic, prior to STS moving common stops to main roadway and,
- 4. STS be comprised of solutions like mini-buses, vans, taxis or public transit worked into funding formulas so that it does not negatively impact STS funding stats; and,
- 5. Kid Key Performance Indicator (KPI) be included for Ministry "Effectiveness & Efficiency Follow Up Reviews", establishing benchmarks for responsive problem solving for kids & parents' busing concerns, and that this be an STS factor to receive funding; and,
- 6. That the Province provide a "Parent Portal" for ongoing busing feedback of their STS, so families and kids can review/provide comments, especially during Ministry STS reviews and revisions to funding; and,
- 7. That the Province have GPS tracking software to notify parents when children picked up/dropped off, and;

That this Motion be distributed to Premier Doug Ford; Honourable Stephen Lecce, Minister of Education; Honourable Caroline Mulroney, Minister of Transportation; Honourable Vic Fedeli, MPP; Honourable Anthony Rota, MP; all Ontario Municipalities; Rural Ontario Municipal Association (ROMA); Ontario Good Roads Association (OGRA); and Association of Municipalities of Ontario (AMO).

Dear Honourable Madam:

Re:

Cannabis Licencing and Enforcement

Please be advised that the Council of the Township of Brock, at their meeting held on February 22, 2021 adopted the following resolution:

Resolution Number 22-2

MOVED by Michael Jubb and SECONDED by Cria Pettingill

WHEREAS the Government of Canada introduced Bill C-45 (the Cannabis Act) to create the foundation for a comprehensive national framework to provide restricted access to regulated cannabis, and to control its production, distribution, sale, importation, exportation, and possession;

WHEREAS the police have not been given lawful authority to lay charges under the Cannabis Act to appropriately respond to violations of Health Canada Registrations and Licenses:

WHEREAS there is no direct communication or dedicated effort to provide a communication channel between Municipal government staff or Police Agencies for dealing with Health Canada Registrations and Licenses;

WHEREAS the Township of Brock has not been consulted by Health Canada prior to the issuance of licenses for properties not in compliance with municipal zoning by-laws;the future;

BE IT RESOLVED THAT the Township of Brock requests that Health Canada:

- 1. Require Federal Licenses and Registrations for Designated Growers to conform with local zoning and control by-laws;
- 2. Ensure local authorities are provided with notification of any licence issuance, amendment, suspension, reinstatement or revocation within their region;

If this information is required in an accessible format, please contact the Township at 705-432-2355.

- 3. Provide dedicated communication with local governments and Police services;
- 4. Provide lawful authority to Police agencies to lay charges when registered or licences operations grow in excess of their registration or licence through Health Canada; and,
- 5. Provide enforcement support and guidance to local municipalities for dealing with land use complaints relating to Cannabis.

AND FURTHER BE IT RESOLVED THAT the Township of Brock will forward this motion by email to the following partners: All municipalities in Ontario; the MP and MPP of Haliburton–Kawartha Lakes–Brock; the Minister of Agriculture, Food and Rural Affairs; the Minister of Agriculture and Agri-Food; and the Durham Region Police Services with the request that the Federal government enact legislation to better support local governments with land use management and enforcement issues as they relate to Cannabis Production and Processing.

MOTION CARRIED

Thank you for your consideration. Should you have any questions please do not hesitate to contact the undersigned.

Dear Ministers,

I am writing to advise that Norfolk County Council supports the attached Norfolk County Agricultural Advisory Board's letter regarding the application of the carbon tax on primary agriculture producers. It is the recommendation of Norfolk County Council that the Federal Government consider the concerns of the agricultural community and move to exempt all primary agriculture producers from current and future carbon taxes. Please find attached the full recommendation.

Thank you for your attention,

Dec 7, 2020

The Honourable Marie-Claude Bibeau, MP Minister of Agriculture and Agri-Food House of Commons Ottawa, Ontario K1A 0A6

Dear Minister Bibeau

Our agricultural advisory board (AAB) who represents the agricultural sector in Norfolk County, Ontario is very concerned about the federal government's current carbon pricing policies. It is our hope that you consider our concerns and move to exempt all primary agriculture producers from current and future carbon taxes.

Carbon tax remains as a major cost of production for producers in Norfolk County. Although some farm fuel purchases are exempt, it is selective and does not meet the needs of the entire agriculture industry. Currently crop drying, heating/cooling of livestock barns and cooling of perishable commodities are still subject to full carbon taxes.

Currently there are no replacements for fossil fuels in agricultural production. As a result, carbon tax policies are notappropriate for the agricultural sector and only decrease farm margins.

Norfolk County which is known as Ontario's garden is home to one of the country's largest diversity of crop production. In addition to the extensive vegetable, fruit and grain production it boasts some of the highest ecological diverse natural habitats, plants and animals in Canada. There is approximately 25% tree cover in the county which is the highest percentage of forested land in Southwestern Ontario. Norfolk County It is also home to over 10,000 acres of woodlots and wetlands protected under Long Point Conservation Authority. In addition to the natural woodlots and wetlands there is also extensive fruit production with 2000 acres of apples and 1000 acres of sour cherries. A mature orchard can fix upwards of 18 mt of C02 annually.

The adoption of production practices to protect the soil and environment are advanced in Norfolk County. There has been a wide implementation of cover cropping, planting green and reduced tillage practices all of which sequester carbon. Additional farming practices of 4R nutrient management coupled with precision technology ensure that appropriate nutrients are applied at the right time, place and rate. In many cases sensitive water sources around ponds and wetlands are planted with buffer strips and soil erosion control measures of grassed waterways and windbreaks are also common practices. ALUS (alternative land use) programs have been embraced across the county, taking unproductive land out of production, and returning it to natural native grass plantings, trees and constructed wetlands. Currently there are 1148 active projects with 189 producers covering 1573 acres in Norfolk County managed under the ALUS program.

The agriculture industry has made great strides to protect the environment and will continue to improve production practices that reduces the carbon footprint in food production.

The AAB board believes that all on farm fuels used in agricultural production should be exempt from carbon tax. This should include natural gas, propane, gas, and diesel. We strongly urge the government to be consistent with a sector wide exemption to current carbon tax policies.

Sincerely,

Dustin Zamecnik Chair of Norfolk County Agriculture Advisory Board May 14, 2021

At the Regular Meeting of Council on May 13, 2021 the Council of the Municipality of West Elgin passed the following Resolution:

Resolution No. 2021- 147 Moved: Councillor Rowe

Seconded: Deputy Mayor Leatham

Whereas Phragmites australis (Phragmites) is an invasive perennial grass that continues to cause severe damage to wetlands and beaches in areas around the Great Lakes; and

Whereas Phragmites australis grows and spreads rapidly, allowing the plant to invade new areas and grow into large monoculture stands in a short amount of time, and is an allelopathic plant that secretes toxins from its roots into the soil which impede the growth of neighbouring plant species; and

Whereas Phragmites australis results in loss of biodiversity and species richness, loss of habitat, changes in hydrology due to its high metabolic rate, changes in nutrient cycling as it is slow to decompose, and increased fire hazard due to the combustibility of its dead stalks, and can have an adverse impact on agriculture, particularly in drainage ditches; and

Whereas invasive Phragmites has been identified as Canada's worst invasive plant species by Agriculture and Agrifood Canada;

Whereas the Ontario government has made it illegal to import, deposit, release, breed/grow, buy, sell, lease or trade invasive Phragmites under the Invasive Species Act; and

Whereas volunteers, non-governmental organizations and various municipalities have invested hundreds of dollars in investments and labour annually for more than eight years in executing management plans to control invasive Phragmites on roads, shorelines and in wetlands; and

Whereas roads and highways where Phragmites that are left untreated become spread vectors that continually risk new and treated wetlands and shoreline areas; and

P: 519.785.0560 ext 222 F: 519.785.0644 E: clerk@westelgin.net www.westelgin.net **Whereas** according to "Invasive Phragmites Best Management Practices" by the Ontario Phragmites Working Group, best roadside management practices for Phragmites australis include detection, herbicide application, cutting, and re-treatment of re-growth as necessary; and

Whereas these best management practices are most effective when used in a multipronged approach as opposed to when used as stand-alone control measures; and

Whereas mother nature does not recognize political boundaries. Therefore, it is imperative that Municipalities, Districts, the Province and the Federal government work together in collaboration to eradicate Canada's worst invasive plant species Phragmites australis:

Whereas the Municipality of West Elgin has been implementing measures for eradication of Phragmites over the past 3 years, including mapping of cells along Municipal and County Roadways, applying herbicide, cutting and monitoring re-growth; and ensuring clean equipment protocols for appropriate contract tenders; and

Whereas the Ontario Ministry of Transportation (MTO) has carried out some Phragmites eradication along Provincial highways, however this process has not been successful because the process has not included a program to deal with surviving plants, and also has not dealt with growth beyond the road allowance, therefore enabling fast re-growth; and

Whereas in the past there has been no approved herbicide for use in wet sites; however, in 2020 a product (Habitat Aqua) has been approved for use in areas of lying water and along waterways in Ontario;

Now Therefore be it Resolved that the Municipality of West Elgin request the Ontario Ministry of Transportation (MTO) to map, treat, monitor, and eradicate re-growth of invasive Phragmites annually on all Provincial highways, including areas beyond the road allowances, where Phragmites cells extend; and

Be It Further Resolved that the Ontario Ministry of Transportation (MTO) communicates that strategy on mapping (detecting sites) and controlling invasive Phragmites on provincial highways, the specific highway management plans and results by each MTO region and each highway in the region and work in coordination with the Municipality of West Elgin; and

Be it Further Resolved that the Province of Ontario designate Phragmites australis as a noxious weed under the Noxious Weed Act; and in collaboration with the Ontario Federation of Agriculture, the Ontario Phragmites Working Group, and Ontario Municipalities, carry out a public education campaign regarding best practices in

P: 519.785.0560 F: 519.785.0644 E: clerk@westelgin.net www.westelgin.net eradicating Phragmites; and if possible, develop a system of grants to support the uptake of these best practices by citizens; and

Be it Further Resolved that the Council for the Corporation of the Municipality of West Elgin directs staff to send this resolution to all Municipalities in Ontario; Honourable Omar Alghabra, Minister of Transportation (Canada); Honourable Caroline Mulroney, Ontario Minister of Transport; James Corcoran, General Services Coordinator, vegetation, MTO West Region; Honourable Ernie Hardeman, Ontario Ministry of Agriculture, Food, and Rural Affairs; Jeff Yurek, MPP; and Karen Vecchio MP.

Carried

Sincerely,

Jana Nethercott

Clerk

The Honourable Doug Ford, Premier of Ontario Legislative Building Queen's Park Toronto, ON M7A 1A1

Honourable and Dear Sir:

Re: Support of the Corporation of the Town of Perth's Resolution - Provincial Hospital Funding of Major Capital Equipment

Please be advised the Municipal Council of the Town of Fort Erie at its meeting of May 31, 2021 received and supported correspondence from the Corporation of the Town of Perth dated April 30, 2021 requesting that further consideration be given to having the Province be financially responsible for the replacement costs associated with all major capital equipment in hospitals or alternatively assume full responsibility for funding local hospitals completely.

Attached please find a copy of the Corporation of the Town of Perth's correspondence dated April 30, 2021.

Thank you for your attention to this matter.

Yours very truly,

Carol Schofield, Dipl.M.A.

Honourable Premier Doug Ford Premier of Ontario Legislative Building Queens Park Toronto, ON M7A 1A1

Dear Premier Ford:

Sent via Email: premier@ontario.ca

Re: Provincial Hospital Funding of Major Capital Equipment

The Town of Perth is requesting that further consideration be given to having the province be financially responsible for the replacement costs associated with all major capital equipment in hospitals, as municipalities across the province are facing major shortfalls in meeting their financial obligations. As set out in their asset management plans and cannot afford to directly absorb the financial responsibility for the replacement costs of the hospitals' major capital equipment without jeopardizing their financial sustainability.

As well, if the province is unwilling to assume the full responsibility for funding local hospitals completely, the Town of Perth requests that the province must develop a legislative framework as to how counties and municipalities should best address the financial shortfalls facing hospitals throughout Ontario, specifically the funding of major capital equipment;

Sincerely,

John Fenik Mayor of Pert

The Right Honourable Justin Trudeau Prime Minister House of Commons Ottawa, ON K1A 0A6 Justin.trudeau@parl.gc.ca

The Honourable Doug Ford Premier of Ontario Legislative Building, Queen's Park Toronto, ON M7A 1A1 premier@ontario.ca

Honourable and Dear Sirs:

Re: Capital Gains Tax on Primary Residence

The Municipal Council of the Town of Fort Erie at its meeting of May 31, 2021 passed the following resolution:

Whereas primary residences are currently exempt from a capital gains tax, and

Whereas currently secondary and additional non-primary properties are subject to capital gains, and

Whereas the Federal Government is currently looking into a primary residence capital gains tax as they have recognized that affordable housing has become a serious issue in Canada, and

Whereas smaller communities including the Town of Fort Erie are seeing unprecedented higher selling prices that are outpacing prices in larger cities, and

Whereas many hard-working Canadians who have only a primary residence with no additional non-primary homes count on their home equity as financial aid to apply to upsizing or downsizing their home depending on their personal situation, and

Whereas a change in taxation to primary residences would be a significant financial blow to Canadians and would create an unfair, two-tiered taxation which could lead to depleted savings, inter-generational disparities, disparities among diverse groups such as seniors who may have a significant portion of their savings vested in their primary residence, as well as, reducing the ability of home ownership thereby a further, higher need for rentals, and

Whereas the Federal government could look at other means to slow down the rapidly escalating housing costs to improve housing affordability;

...2

Now therefore be it resolved,

That: The Federal Government cease further consideration of eliminating capital gains tax exemptions on primary residences, and further

That: A copy of this resolution be circulated to The Right Honourable Justin Trudeau, The Honourable Doug Ford, Premier of Ontario, All Members of Parliament, All Members of Provincial Parliament, The Regional Municipality of Niagara, and all Municipalities, for their support.

Thank you for your attention to this matter.

Yours very truly,

Carol Schofield, Dipl.M.A.
