

Paul Mall Alley Display Project

Call for Artists - Promotional Opportunity for Local Artists

Project Overview:

The Paul Mall Alley Display Project seeks to feature six new artists in 2024/2025. The display units located in the Paul Mall Alley provide an opportunity for local and regional artists to have an ongoing public space to display and promote their artwork and provides artists the opportunity to be a part of the City's Downtown Arts Tour.

The artwork display panels may be changed and refreshed seasonally, and will be representative of the diverse artistic communities that Sault Ste. Marie and surrounding region enjoy. The project will help connect artists to their community and visitors while enhancing visibility and opportunities for artwork sales and commissions.

Local and regional artists are invited to submit one current portfolio work to be reproduced that represents their artistic practice, which will be displayed along with their biographies and contact/website/social media details in the display units.

There will be no charge for artists to participate. All artists that are selected for display will receive an artist fee of \$600 for a 12-month display period. In the event an extended showing is possible, the artist will receive a \$50 monthly fee for each additional month their work is displayed.

All artwork will be reviewed and selections made by a Project Selection Group.

Art Board Dimensions, Artwork Specifications & Artist Information:

The art board dimensions are as shown below. All artwork must fit within the allowable dimensions when scaled for printing. Original art can be any size as long as proportions are maintained. As artists are promoting their own practice they must provide high quality digital copies of a current portfolio piece of their choosing.

Preferred format is high-resolution JPEG or PDF at 300DPI. The artwork provided by the artist should be of a quality and resolution that will reproduce to the below dimensions clearly. The digital files do not have to be actual size but can be scaled down as long as the resolution is maintained (to reduce file sizes). Digital file names should include the artists name and title of work.

As the display panels are fixed, all artwork must fit within and fill the visible area. Artists wishing to use artwork that does not conform to the dimensions of the display panel may, at their discretion, crop or alter their artwork to fit, prior to submission.

Artist info signage will be created in a pre-designed template by City staff. Artists will be required to provide an artist biography with contact information and/or links to their website/social media pages, etc. as they wish for it to appear alongside their work. Artists biography should be approx. 500 words or less in Word or other editable text format.

Note: 1.5" bleed around artwork due to retaining frame

Digital Artwork will be printed on a durable vinyl and applied to the display and artist info signage by City staff.

Standards for Artwork Submissions:

All artwork must be original, designed and executed by the artist submitting the design.

No copyrighted material other than that of the artist will be accepted for display.

Artwork must meet a high standard of quality to be considered. Artwork shall not be profane, indecent, obscene, or promote violence, hatred, contempt or discrimination, the determination of which will be made by the Project Selection Group at their sole discretion.
